

Press Release for Media
Communication to employees, clients and vendors
Joint Release by PRINT International and 291 Digital

New York City - January 8, 2007

The asset acquisition of 291 Digital, LLC by PRINT International's subsidiary, 291 Digital New York LLC (291 NY), gives the Advertising Agency, Corporate, Fashion and Cosmetic and Out of Home Industries access to one of the largest privately held resources of premier quality graphic services in our region.

According to Paul Rosenblit, President of PRINT International and of 291 NY, and Mark Wenger, Vice President of 291 NY, the combination of the two organizations will further add to our impressive range of services offered to the graphic community. While both companies have been operating in this sector for some time, we now have an expanded highly professional, fully staffed, state of the art organization delivering unparalleled solutions and product to an established global client base.

PRINT International and 291 NY will operate its two world-class facilities containing over 150,000 combined square footage at 227 East 45th Street in New York City, and 27 St. Johns Place in Freeport Long Island.

Our expanded services include, customized digital workflow and asset management, boutique creative retouching, pre-press-pre-media, sheet-fed lithography, digital on-demand printing, full service bindery, agency production, full service RGB photo lab, large format flat-bed digital printing, grand spectacular out-of-home production, finishing, mounting, laminating, fulfillment, installation and distribution services which are all provided in house to complement the complete range of services offered.

Ross Network Inc. does business as PRINT International. Additional information about our facilities including complete equipment lists in PDF format can be viewed on our websites: www.printint.com and www.291digital.com
